DOWD WAS THE AGGRESSOR

THREATENED TO KILL REISER AND HIS FAMILY.

Attacked Reiser With Pistol and Hatchet and the Latter Shot In Self-defense—Death of Mrs. Benson, Pioneer, at Logan—State News.

(From The Herald's Correspondents.)

A dispatch from Rock Springs contains further details of the tragedy on Sheep Creek, Utah, which appeared in the Herald last Tuesday. It says: Reports reached here yesterday of the killing of C. J. Dowd, a ranchman living on Sheep Creek, near the Utah-Wyoming line, by his partner, a man named Reiser. The two were working together in a blacksmith shop and quarreled over trifling matter in their work. Dowd said: "I have a good notion to kill the whole outfit of you," referring to Reiser and his family. With the threat he drew his pistol and fired at Reiser. The first bullet missed, but the second inflicted a slight wound. Reiser then struck Dowd with a hatchet and took his pistol. Dowd grasped a knife and rushed at Reiser, who shot as he advanced, the ball striking Dowd in the forehead, killing him instantly. The affair took place across the Utah line, and Reiser immediately returned himself to the authorities of that state.

Widow of the Late Apostle Benson of Logan.

Logan, April 20.—This morning Mrs. Adeline B. Benson, widow of the late Apostle Ezra T. Benson, and one of the 1847 pioneers, passed away, after a short illness, brought about by a fall sustained some time ago. The deceased was born in Windsor, Conn., March 1813. She was married in the Mormon church by Ezra T. Benson at Westfield, Mass., on Aug. 15, 1842, and accompanied Mr. Benson back to Nauvoo in September of the same year. She was married to Mr. Benson by the Patriarch Hyrum Smith on April 27, 1844, just two months before his martyrdom. In January, 1845, she and her husband left Nauvoo on Feb. 2, 1845, crossing the Mississippi on the ice. She arrived in Salt Lake City on Oct. 2, 1847, her husband having preceded her, he being a member of the first company of the pioneers. For 12 years she remained in Salt Lake, living in an adobe house, where her husband erected, on the corner where the M. I. shoe factory now stands. On May 1, 1860, she arrived in Logan, where she has lived ever since. She leaves two children, George T. Benson of Whitney, Ind., and a son, John, of this city. She also leaves 20 grandchildren and five great-grandchildren. Throughout her long life she has borne a spotless and pure reputation, integrity and the virtue of a true and noble woman. The funeral services will be held in the tabernacle at 1 p. m. on Friday.

MT. PLEASANT'S PARK.

When Completed It Will Be a Credit to the City.

Mt. Pleasant, April 20.—Improvements at the city park are being rapidly pushed forward, and the place already presents a very much improved appearance. Several thousand ornamental and shade trees have been secured, and planting will commence tomorrow. A baseball and football ground is being reserved in the park. Bicycle enthusiasts have secured permission to erect a track around the park, and a three-quarter mile space, feet wide, has been staked off, and is being prepared. It will make a first-class track when completed.

MT. PLEASANT POSTOFFICE.

State Committee Disgusted by the Republican Scramble.

Mt. Pleasant, April 20.—The Mt. Pleasant postoffice is still a bone of contention among Republicans. The state chairman was recently interviewed by interested parties, but his response to the appeals presented was anything but assuring. His information was that the state committee had from the matter of the postoffice, in the manner in which they had been addressed by different persons interested had not caused them to look with favor on any of the applicants for the position. The present Democratic incumbent will in all probability retain control of the office for some time to come.

SPRINGVILLE MILITIA.

A Full Company Will Probably Be Enlisted.

Springville, April 20.—Interest in the National Guard is reviving at this city, and it is likely that a full company will be secured. A disinclination to enlist is due on the part of many to ignorance of the requirements. There is also a great deal of opposition on the part of some of the farmers who fear that their boys will be sent to Cuba. Judge Westwood, Don C. Johnson and Editor Gibson of the Independent, are continuing the work of securing recruits, and expect to see their labors crowned with success.

Sugar Beets.

Lehi Banner: Up to the present there have been a little over 2,300 acres of sugar beets planted. About 600 acres in Lehi, 400 acres in Salt Lake county, and the rest in the southern districts. Those planted first are coming up and making a good showing. Those who have not planted will wait a few days, and if we get no rain, will irrigate their land. It is too dry now to cause the seed to germinate. In some instances, where the land will stand it, it will be plowed again, to bring the moist soil to the top, and will then be planted. There are only a few fields that will stand this treatment without drying out.

Park City Notes.

Park City, April 20.—The L. D. S. benefit hall at the Park Opera house last night called out a large attendance, after having been held for some time. A benefit to Mr. Lonsdale Allen, who goes to Great Britain on a mission. Mr. Allen departed from the Park this morning.

Contract for a Tabernacle.

Richfield Advocate: J. H. Bowman, the well-known contractor of Salt Lake City, will finish the construction of the Mormon tabernacle of Sevier stake, in Richfield, according to the plans and specifications prepared by Architect R. C. Watkins of Provo, and described some time ago by the Advocate. Mr. Bowman was given the contract last Saturday evening at \$15,375. That covers everything but the seating of the building, which will be ready for occupancy by the first of 1899.

Payson's Schools.

Payson, April 20.—The Payson school trustees have decided to continue the public schools only four weeks longer, on account of insufficient funds. The board has levied a school tax for 1888 of 1 mill.

Hard On the Wool Growers.

Mt. Pleasant, April 20.—Local wool-growers are much concerned over the recent fall in the price of wool. Many flocks have been shorn, but no growers have succeeded in disposing of their wool at a profit. Some have had to ship it on at a loss, and others have had to sell it at a loss. This results in hardship to the woolmen, as all business dealings and calculations are based on the income from the clip.

Is Now All Right.
